Product Features

- Manufactured from robust grade 304 stainless steel with a one piece outer and vandal proof lock screws for easy installation and strong anti vandal properties.
- Equipped with advanced water-blasting technology, the upgraded motor delivers extremely impressive world-class airflow speeds of up to 150 m/s.
- Fitted with an anti bacterial HEPA filter to ensure the air used to dry users hands is as clean and hygienic as possible.
- All operating systems are integrated within the panel for easy maintenance.
- Super smart, its ECO Air Sensor will detect the ambient temperature of your washroom, then automatically adjust the airflow temperature to keep running costs right down.
- Equipped with a green/blue front indicator light which consequently provides a visible indication of operation.
- An intelligent heating system will detect the ambient temperature of your washroom, automatically adjust the airflow temperature to keep running costs right down. Automatically adds heat to the airflow if it senses a room temperature drop below 25°C.
